Photo 1 Claire at the Sol y Luna island.

2

Photo 2 Nelson and a GEO member enjoying the sunset on Lake Titicaca.

Nelson essentially oversees the status of the pumps. He was our main source of communication when we were in Utah. He took us to each of the islands and talked with the islanders about the pump.

3

Photo 3 Thomas installing a pump into one of the islands.

4

Photo 4 Sam and Thomas using a fully installed pump.

Photo 5 Team members teaching a local islander how to use the pump.
